starting at 10 a.m., check out the daylong presentations, workshops, arts and crafts demonstrations, live music, Appalachian dance, environmental talks and various children’s activities on FSU’s Upper Quad. Two stages will feature music highlighting the area’s strong bluegrass, old-time, Irish and Scottish music traditions.

In addition to the music, there will be a singing workshop, storytellers, dance demonstrations, an overview of fiddling traditions and the early banjo, and a reading and book signing with local author Rory Shane Riggs. There will also be talks on medicinal roots, mountaintop removal, Marcellus Shale and eminent domain, and the Cherokee Trail of Tears, as well as Scales to Tales, an up-close view of the region’s wildlife. At 2 p.m., members of Buffalo in the Castle will present “Foreign Sounds Rendered Familiar” in which

they will explore the historic and dynamic connections between American old-time music and traditional music.

Presentations

Environmental Activism by Alec Loorz

Seventeen-year-old climate change activist Alec Loorz will bring his enthusiasm and wisdom on how to get involved in environmental activism to FSU during a lecture on **Sept. 19** at 7 p.m. in Lane Manicur Hall. The presentation, which is free and open to the public, kicks off an active year of service, engagement and global community, key areas the University highlighted during its Freshman Convocation.

A passionate advocate for the generations that will be affected most by decisions made this year, Loorz inspires youth to get involved in bringing about change in their families, schools and communities.

Loorz is the founder of Kids vs Global Warming, one of the leading young voices in the U.S. on climate change. KvsGW is focused on empowering young leaders to influence the transition to a sustainable and just society through the iMatter Council of Youth and a global campaign called the iMatter March. Loorz is suing the U.S. government to get them to fulfill their obligation to protect the atmosphere.

Loorz' presentation is sponsored by the Office of the President, Student and Educational Services, Student and Community Involvement and FSU's sustainability committee, Learning Green, Living Green. To learn more about his work as an activist, check out facebook.com/iMatterMarch and www.iMatterMarch.org. Powell Awarded Grant

Kathleen H. Powell, an associate professor in the Department of Social Work and doctoral student in social work at the University of Maryland, Baltimore, was recently awarded a doctoral dissertation grant of \$20,386 from the U.S. Department of Housing and Urban Development. Her dissertation, "In the Shadow of the Ivory Tower: Neighborhood Relations in a College Town," is an ethnographic study of a campus-adjacent neighborhood in which diverse groups must negotiate neighborhood norms in spite of the fact that they share neither a common sense of community nor the same degree of attachment to place. She will begin her research this fall.

Free Bio-medical Screenings!

FSU's popular student health and wellness initiative is hosting another round of annual bio-medical screenings this fall. Creating Healthy, Informed, Lasting Lifestyles (CHILL) will ask students to participant in their bio-medical screenings on **Tuesday, Sept. 20, Wednesday, Sept. 28, and Thursday, Oct. 13**, from 8 a.m. to noon each day. Students will be able to have their blood pressure, body

mass index, body composition, blood sugar and cholesterol levels checked at no cost, all while earning CHILL prizes.

To complete the screening, students will need to refrain from eating or drinking anything but water for at least eight hours before the screening. The screenings involve having a vial of blood drawn to check the blood sugar and cholesterol levels.

Each student screened will be eligible to receive follow-up care at Brady Health Center, including free consultations with nursing staff and the CHILL dietician.

In exchange for the student's time, each participant will receive a complimentary breakfast and a free CHILL T-shirt, and will be entered in drawings for other free CHILL prizes. The first 25 students in line each morning for the screenings will also receive a special bonus CHILL prize.

To be eligible for the screening, students must be at least 18 and not have any previous diagnosis concerning their blood sugar or heart health. Students who do not qualify for this screening are encouraged to contact Brady Health Center to make an appointment to have the screening performed at a later date.

Originally launched in September 2008 with a contribution from AstraZeneca Pharmaceuticals LP, CHILL promotes health practices and education among college students and the local community. Since 2008, CHILL has performed over 1,150 screenings with nearly 77 percent of the results indicating at least one health concern. The goal of CHILL's screenings is to get students thinking about the lasting impacts that diet and exercise habits can have on their bodies. CHILL hopes to screen 500 students during the 2010-2011 academic year.

To learn more about CHILL, visit www.frostburg.edu/chill or email wellness@frostburg.edu.
